The World's Expert in Glass Lamination

# EVALAYER

## the Value-Added Solution for Laminated Glass

### EVALAYER IS A HIGH-PERFORMANCE FILM FOR TEMPERED GLASS

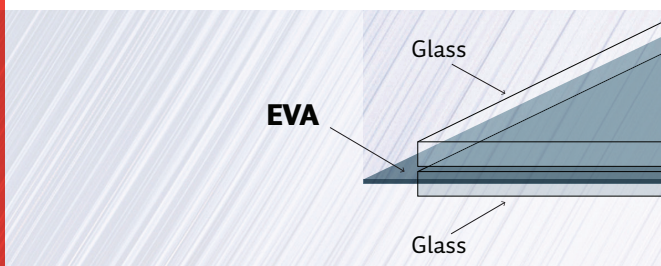

A great solution for laminated tempered glass, **EVALAYER** provides flawless, distortion-free lamination while ensuring first-rate visual quality. During the application process, **EVALAYER** covers all imperfections and evens out the surface of the glass for an impeccable, crystal clear result.

### EVALAYER MERGES GLASS AND DECORATIVE INSERTS LIKE NO OTHER

Take design to the next level with **EVALAYER**. This product allows you to work with a wide range of inserts including PET film prints, polycarbonates, wood veneer, metal, paper, stones, screen mesh and many more!

### EVALAYER IS EASY TO USE, HANDLE AND STORE

Forget about complicated processes. **EVALAYER** offers superior adhesion to glass while ensuring easy handling and room temperature storage.

### EVALAYER OFFERS EXCEPTIONAL PROPERTIES

- Maximum durability and stability
- High transparency
- Very low haze
- Remarkably low yellow index
- Superior protection against UV rays
- Very high moisture resistance
- Excellent sound insulation
- Suitable for application in open edges indoors and outdoors
- ANSI-impact compliant

### EVALAYER CAN BE USED WITH A WIDE RANGE OF SEALANTS

Resistant and convenient, **EVALAYER** is also compatible with a variety of sealants. Nonetheless, make sure to check with the sealant manufacturer prior to application.

### OTHER ADVANTAGES OF EVALAYER

- Use it everywhere! **EVALAYER** is so exceptional it can be applied safely both inside buildings and in places exposed to the elements.
- **EVALAYER** is synonymous with durability. No other interlayer resists the passage of time.
- **EVALAYER**'s electrical insulation and moisture resistance properties ensure that products like LED lights and switchable glass remain stable over time.

# With **EVALAYER** Safety Comes First!

**EVALAYER** is a thermo-set film especially designed for safety glass applications because laminated glass can withstand severe shocks, reducing the likelihood of accidents and protecting you against potential injuries. This high-performance EVA (Ethylene Vinyl Acetate) interlayer film has excellent cross-linking capabilities and performs spectacularly in terms of bonding strength and structural integrity.

**EVALAYER** can be processed very easily in both autoclave and vacuum lamination furnaces under normal climatic conditions. Moreover, the product's mechanical and structural strength guarantees safety during and after application. **EVALAYER** provides several multifunctional glazing advantages, such as enhanced safety, endless design combinations, and thermal and sound insulation.

## **EVALAYER CAN BE USED IN COUNTLESS APPLICATIONS:**

- Buildings
- Outdoor structures like skylights or balcony railings
- Decorative glass
- Windshields
- Indoor structures like partitions or doors
- Wall cabinets
- Counters
- And much more!

## **A TECHNICAL SUPPORT TEAM DEVOTED TO YOUR SUCCESS!**

Interlayer Solutions offers comprehensive technical support to ensure the best results in the application of its products. With many years of experience in the field, our technically savvy and courteous staff will make sure your questions are answered as promptly as possible.

Note: **EVALAYER** has gone through rigorous in-house and independent testing to ensure flawless application, customer safety as well as durability and stability. However, **EVALAYER** must not be combined with other laminating film brands. The data provided in this document is for information purposes only.

# EVALAYER

## the Value-Added Solution for Laminated Glass

EVALAYER interlayer film comes in three different colors: **clear**, **milky white** and the newly available **super white**.

Due to its low melt viscosity, EVALAYER is ideal for laminating uneven surfaces. Moreover, the excellent flow properties of EVALAYER allow you to apply various layers of the same thickness rather than using different thicknesses.

Insert a colored or printed polyester film for endless color and pattern options.

EVALAYER comes in standard sizes:

Clear EVALAYER (0.015") – 49" x 426'	1,762 Sq. Ft
Clear EVALAYER (0.015") – 70" x 426'	2,518 Sq. Ft
Clear EVALAYER (0.015") – 86" x 426'	3,077 Sq. Ft
Clear EVALAYER (0.030") – 70" x 213'	1,258 Sq. Ft
Milky White EVALAYER (0.015") – 86" x 213'	1,526 Sq. Ft
Super White EVALAYER (0.015") – 78" x 164'	1076 Sq. Ft
Super Black EVALAYER (0.015") – 78" x 114'	753 Sq. Ft
